PERSONAL PROJECTS

Foodrr App (09/2022 - Present)

- Currently working on an food related app which salient features include , login/signup database collection , recipes sharing communities, local household people can share their dishes among communities as paid or as community service + others can locate them based on their services.

Portfolio Site (08/2022 - Present)

- Working on my personal portfolio 'cool' site "shreyanshkr.com", using html, css, bootstrap and javascript. since i have not that much knowledge of these technologies I am learning them slowly and making use of them in my portfolio site, It's pretty slow as the learning with implementation is goin slowly

Todo App (10/2022 - 10/2022)

- Basic Simple todo app Using Flutter and Hive Local Storage library which stores information with 'no' space

SushiLap Website (12/2021 - 01/2022)

- Created the website for sushilap, a branding and digital marketing agency using Html, CSS, Javascript, Bootstrap and Firebase with the help of one of my freind who helped in Firebase. Some salient features includes.. Contact page, service page, booking page etc.

Sunnydaycarers.com.au (11/2021 - 11/2021)

- Modiefied SunnyDayCarers website , made changes, added pages and visual design improvements in their website

AussieYouthCare.com (11/2021 - 11/2021)

- Modiefied Aussie Yout Care website , made changes, added pages and visual design improvements in their website
